FOR IMMEDIATE RELEASE

Washington, DC (March 22, 2004) – Introducing the Euro Stone Facial, now available at Skin Savvy Spa Express. Bringing another dimension to the facial, the Euro Stone Facial is a deep cleansing facial, which includes a facial massage using heated river stones to increase penetration of custom blended nutrient creams, which completely relax facial muscles. Hot and cold semi-precious gemstones are then applied to specific areas of the face to balance energy, improve capillary circulation, and stimulate a heightened sense of well-being.

Similar to stone therapy for the body, the Euro Stone Facial is healing in an overall sense, yet customizable for each client. Each stone has its place and purpose in the treatment, and the gemstones take on even greater healing significance in the process, rebalancing the client's energy centers, while placing the client in a state of deep relaxation.

Heralded as the ultimate in relaxation and for a radiant, healthy complexion, Skin Savvy Spa Express' clients have been "ecstatic" with the Euro Stone Facial. Clients are not only booking, they are rebooking for the treatment.

Skin Savvy Spa Express, a boutique spa that couples express services with the pampering of a resort spa to create the ultimate relaxation experience, was introduced nearly two years ago in Washington, DC.
